

PARTICIPANTS NEEDED FOR HEARING RESEARCH STUDY

STUDY #4646 - MOUSE, MAN, AND MACHINE: COMBINING MODEL SYSTEMS
TO DEVELOP A BIOMARKER FOR COCHLEAR DEAFFERENTATION IN HUMANS

This study is open to both Veterans and Non- Veterans

We are looking for people who fit the following criteria:

- 18 - 59 years old
- No history of a concussion
- Native English speaker
- No more than mild hearing loss

**\$20/
HR**

- The study consists of a 2.5 hour screening visit and 2-6 additional test sessions (2.5-3 hours each) and will pay you \$20/hour for your time.
- Test sessions will include questionnaires, a memory test, and several hearing tests including; raising your hand to sounds, repeating words, and tests in which certain physical responses are measured as you listen to sounds.
- By participating you will be contributing to research that may benefit patients in the future. In addition, you may benefit from receiving a hearing test.

**If interested, please call (503)220-8262 and enter
ext. 53856 for Maddy.**
